The infographic is a purple rectangular graphic with rounded corners. At the top left, the word 'WAGE' is written in a small, white, sans-serif font. To its right is a circular icon containing a white briefcase. In the top center, the word 'APPRENTICESHIPS' is written in a large, white, hand-drawn style font. To its right is another circular icon containing a white stack of books. Below the 'WAGE' icon is a dark blue circular icon with a white apple logo and a small white plus sign to its right. Below the 'LEARNING' icon is a dark blue circular icon with a white graduation cap and a small white plus sign to its right. In the center of the graphic, the words 'TELL ME THE FACTS' are written in a white, hand-drawn style font inside a dark blue rounded rectangle. Below this, there are four circular icons arranged horizontally. The first icon is light blue and contains the text '16+' in a large, green, hand-drawn style font. Below it, the text 'The age you can start applying' is written in a small, white, sans-serif font. The second icon is light yellow and contains a white illustration of a briefcase. Below it, the text '£100m Extra money' is written in a small, white, sans-serif font. The third icon is light purple and contains a white illustration of a document with a checkmark. Below it, the text 'Gain qualifications' is written in a small, white, sans-serif font. The fourth icon is light red and contains the text '100%' in a large, red, hand-drawn style font. Below it, the text 'Endowment counts' is written in a small, white, sans-serif font.

# Your Pathway Options

We are excited to offer a wide range of A-level and vocational qualifications designed to help you build a professional study programme that supports your ambitions – whether that's university, an apprenticeship, or a career in the creative industries. Our leading thought leaders have shaped our vision.

To simply help students' combination of three A levels and/or vocational subjects, including one subject from any block. There's a range of choices to help you find the right mix of subjects to support your interests and career goals. Our flexible approach allows you to tailor your studies to your needs and interests.

To join our Sixth Form, students must meet the minimum entry requirements: 5 GCSEs at grade 4 or above, including either English or Maths at grade 4.

Some subjects also have specific entry requirements – these are outlined at the bottom of the following page to help you make the best choice. Students will be required to complete a trial or GCSE Maths if they do not achieve a grade 4.

We can't wait to support you in shaping a Sixth Form experience that's tailored to your goals, interests, and future plans.

| Block A              | Block B                | Block C                               | Block D                         | Block E                                  |
|----------------------|------------------------|---------------------------------------|---------------------------------|------------------------------------------|
| Account Studies      | Accounting             | Applied English Language & Literature | Applied Geography               | Applied Maths                            |
| Applied Science A&AS | Applied Computing      |                                       | AS/A Level Sport                | AS/A Level History                       |
| AS/A Level Biology   | AS/A Level Design      | AS/A Level Economics                  | AS/A Level Law (Law & Politics) | AS/A Level Music                         |
| AS/A Level Maths     | AS/A Level Photography | AS/A Level Art                        |                                 | English AS/A Level with Creative Writing |

YEAR 10-13

# FOR STUDENTS AGED 14-18

The FREE Get into Medicine or Get into Dentistry Conference is a complete guide to the medical or dental application journey. Students get essential insights into the medical/dental UCAS application process (such as the NEW personal statement structure), connect with professionals, fellow students, and gain a deeper understanding of a future career in medicine or dentistry.

Our conferences will provide tailored advice, covering essential topics such as:

- Application Timelines
- How to Tactically Choose Medical/Dental Schools
- CV Building
- Personal Statements - - Medical/Dental School Interviews
- UCAT - Entrance Exams to Medical/Dental School
- Medical Leadership and Awards Programmes
- Accessing Work Experience
- Accessing Scholarships

Students will be awarded a certificate of attendance, which can be listed on their UCAS applications for 'activities that support higher education'. Student's must have a functioning camera and microphone for the session. It's also important to have a parent or guardian present at these conferences, not only for safeguarding but also to gain insight and guidance to support effectively.

YEAR 10-13

- A chance to build their own app and tackle a real-world challenge.
- A portfolio of work they can showcase for jobs, apprenticeships, or university applications.
- A deeper understanding of how technology can be applied in fields like healthcare, education, and sustainability.
- A certificate of participation
- The cost is £35 per student, which covers platform and administration costs.

## National No-Code Hackathon

Competition For Students

Are you ready to create your own app? Do you want to learn how to build a real-world project? All without writing a single line of code?

Tech Mentor aligns with the UK government's mission to equip young people with digital skills and prepare them for the careers of tomorrow. You can enter multiple events across the year by registering for a place online. Each time you join a hackathon, you meet a fantastic new group of students and improve your tech skills across the year!

**Discover Creative Careers:  
Behind the Screen: Your Future  
in Film, TV, Games & Animation**

With IMA Film

Love film, TV, games or animation? Ever wondered about the people, skills and ideas that bring screen content to life? Join IMA Film's virtual work experience and explore the wide range of careers across the screen industries. Over three days, you'll hear from industry professionals, take part in interactive activities and gain insight into different career pathways across film, television, animation and games. Working as part of a team, you'll take on a creative project challenge, developing ideas, solving problems and presenting your work alongside other participants. Along the way, you'll build your confidence, along with valuable skills that employers look for around problem-solving, creativity and teamwork. You'll also discover exciting roles you may never have heard of before and learn more about the many routes into the industry. Whether you're considering a future career in the screen industries or simply looking to develop new skills and explore your interests, this opportunity is a great way to gain experience, meet professionals and discover what's possible.

FUTURES **FOR ALL**

## ONLINE WORK EXPERIENCE, REMOTE INSIGHT DAYS, IN-PERSON WORK EXPERIENCE AND HYBRID

Futures For All opens up real-world work experience for young people, wherever they are on their journey. We offer a mix of in-person and remote placements, as well as shorter Insight Days, in partnership with hundreds of leading UK employers. Together, we help students build practical skills, confidence and a clearer sense of what different careers are really like, while giving employers the chance to inspire and support the next generation.

Our high-quality, fully funded programme is open to 14 to 19-year-olds in state schools and colleges across the country. Students can explore opportunities that match their interests and goals through our trusted Work Experience Finder, with clear guidance on how and where to get started.

We work closely with educators and employers through our dedicated education and delivery teams, offering step-by-step planning, proactive programme management and robust safeguarding support. This ensures every placement is structured, supported and genuinely impactful for the young people taking part and the organisations that host them.

<https://www.unifrog.org/>

unifrog

Unifrog is an online careers information platform that helps students and teachers make decisions about post-school options. Designed to help students explore their interests, compare options, and apply for courses.

Students can use Unifrog to:

- Discover career and subject-related video content
- Take quizzes and psychometric tests
- Compare universities, colleges, apprenticeships, and work experience opportunities
- Draft applications, such as CVs and personal statements
- Record achievements and activities

*Every student at Tewkesbury Academy has access to Unifrog from Year 7 up to Year 13*

*Students just need to login with their personal school email address as their login and click on "reset password" for a password link to be sent to their school email.*

*Students may log on to Unifrog at any time during their time at Tewkesbury Academy, either in school or at home. A quick link can be found on the CLF/Tewkesbury Academy landing page.*

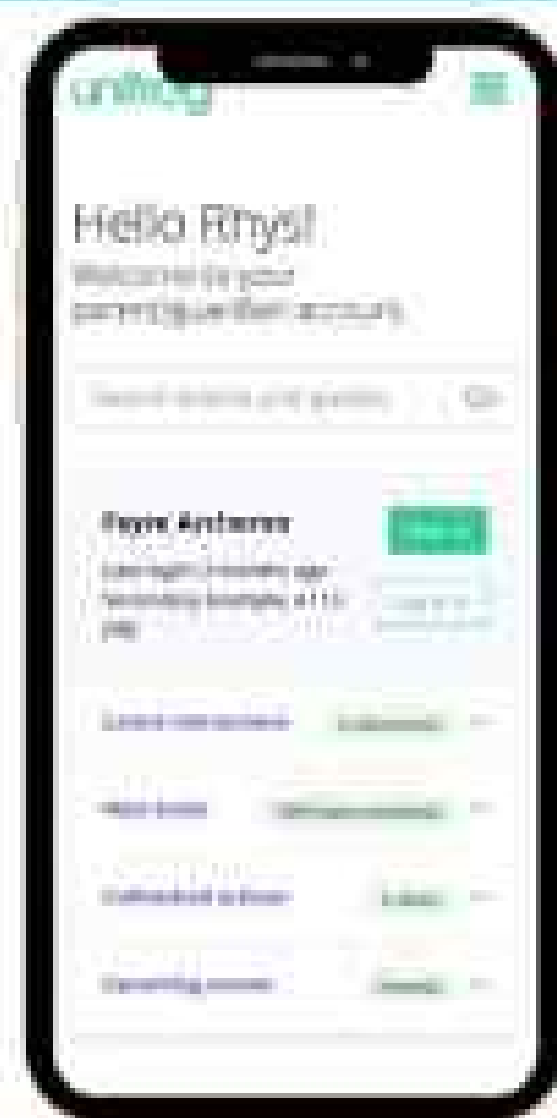

## Parents and caregivers: get signed up!

Why should students have all the fun?! You can create your own account to see key details about your child's Unifrog journey, and to access the tools in the same way students do!

## Prescott Engineering & Innovation Festival Launched as New Joint Venture Between the Bugatti Owners' Club and The Bugatti Trust

A unique celebration of motorsport engineering, innovation and education aimed to  
Prescott, Gloucestershire, UK, on **Saturday 14th and Sunday 15th October 2025**

From 17th August 2025, The Bugatti Owners' Club (BOC) and The Bugatti Trust Museum and Study Centre are delighted to announce the launch of the Prescott Engineering & Innovation Festival, on **Saturday 14th and Sunday 15th October 2025**.

The new, co-promoted event will combine the excitement of competitive hill-climbing with a vibrant showcase of engineering excellence, technological innovation and educational engagement.

This alongside Prescott's traditional October Hill Climb meeting which will feature over 120 competitors over each day, ranging from top flight single seater racing cars to road-going daily commuters, the new festival will feature Prescott Hill Climb, this a dynamic engineering showcase, offering visitors the opportunity not only to experience the thrill of motorsport but also to discover the technology, creativity and expertise that drive performance-oriented design.

Designed as a celebration of ingenuity, speed and innovation, the Prescott Engineering & Innovation Festival will bring together engineers, historians, manufacturers, students, educators and motorsport enthusiasts for a day of competition, learning and inspiration. An essential element of this inaugural edition of the Festival will of course be Bugatti engineering.

A key feature of the event is its collaborative approach, marking a significant milestone in the partnership between the Bugatti Owners' Club and The Bugatti Trust. The Festival has been developed as a long-term joint venture, with both organisations working together to create a distinctive event that showcases the heritage, present and future of engineering and motorsport.

Visitors are most forward to a wide range of activities spread the hill climb action, including:

- Free on-site engineering and innovation education through The Bugatti Trust
- An extensive Formula Student showcase showcasing the next generation of engineering talent
- A dedicated Bugatti Museum and Engine Room
- Educational programmes focused on STEM, from universities, colleges and schools organisations
- A dedicated hyperengineering and automotive heritage centre
- An exciting Formula Race, featuring historic and contemporary vehicles (historic combined engineering excellence)

Volunteering helps school children build essential real-world skills and boosts their future career prospects.

### Why Volunteer?

**Real-World Experience:** Students learn how workplaces function outside the classroom

**Character Building:** Helping others teaches responsibility, reliability and work ethic

**Community Connection:** Pupils feel a stronger sense of belonging

### Key Employability Skills Developed

**Communication:** Talking with diverse groups improves listening and speaking abilities

**Teamwork:** Working toward a shared goal teaches compromise and cooperation

**Problem-Solving:** Facing unexpected challenges builds practical thinking skills

**Leadership:** Taking charge of tasks or projects fosters initiative and planning

### Standing Out to Future Employers

**CV Enhancement:** Volunteer work looks great on job or university applications

**Character Proof:** It shows hiring managers a student's personal drive, commitment and reliability

# Retail Volunteer (Tewkesbury Superstore)

## Volunteers will find:

At Acorns we are dedicated and support for the families of the thousands of children and their families. We are a charity, proud of the care that we provide to look after the children and their families through our shops.

To help us to continue to provide the care that we do, we are looking for fun and enthusiastic volunteers to join us in our Acorns charity shops. Our shops are exciting and dynamic, with no two days being the same. From our wide range of books, to clothing, toys, and everything in between!

## Our shop Volunteers will do, you will do:

- Engaging with customers
- Accepting and sorting donated stock
- Pricing donations for sale
- Working on the till

Tewkesbury Superstore is open Monday to Saturday from 10.30am and Sunday 12pm to 4pm. You will receive the most fun and you will be paid for your work. If you can't help for at least 3 hours a week.
